EQUIPPED AND READY

TOOLS AND EXPERTISE FOR NEW CONSTRUCTION,
EXPANSIONS, REFURBISHING AND MAINTENANCE

WILLIAMS®

TOGETHER V

INDUSTRY-SPECIFIC TOOL SETS

BUILT TO GET THE JOB DONE

Critical for new construction, facility expansions, and plant maintenance by providing technicians with immediate, reliable access to the tools they need.

MAMMOTH TOOL SET ▶

The largest tool set in the industry to handle almost any job your facility is likely to see.

MEGA TOOL SET

For industrial maintenance mechanics and tradesmen.

MAXXUM TOOL SET

For tackling increasingly complex maintenance tasks.

MONSTER TOOL SET

To support proactive maintenance.

MASTER MAINTENANCE TOOL SET

For general service and repair applications.

WE BUILD SUCCESS

SAVE TIME AND MONEY

Engineered attachment points **don't** interfere with the functionality of the tools.

WORKING AT HEIGHT

TURN-KEY SOLUTIONS WITH INSTALLED, ENGINEERED ATTACHMENT POINTS

Dropped tools during construction or maintenance can cause injuries and delays. Williams territory managers will work with you to determine your drop prevention needs and provide a complete system.

Job-specific Tools@Height sets allow users to simply open the box and get to work. Williams offers sets for:

- Boilermakers
- Electricians
- Pipefitters
- Maintenance
- High Rigging
- Scaffold Builders

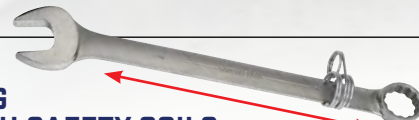

ROTATING SCREWDRIVER TABS

- Located for secure retention allowing full use of the screwdriver handle

SLIDING WRENCH SAFETY COILS

- Slides out of the way along the wrench handle to provide full use and achieve greatest leverage

MINIMIZE THE RISK

Independent tethering allows a tool to be removed and returned to its holster with one hand so the user can maintain the critical "three points of contact" when working at height.

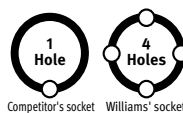

PINNED TANG ON PIPE WRENCHES

- Pin secures the tang so that it cannot become separated from the handle

SPRING LOADED LOCK BUTTONS FOR SQUARE DRIVE TOOLS

- Lock button engages with side lock holes in sockets, extensions, and adaptors ensuring positive retention

THPRTA Pin Release Tool for Williams' Square Drive Tools

MATERIAL REMOVAL TOOLS

FILES

PRECISION SHAPING AND FINISHING

Used for smoothing rough edges, deburring metal and fine-tuning parts for proper fit. Critical for cleaning up threads and fitting new components into existing assemblies.

Available in:

- Engineering
- Sharpening
- Rasps
- Needle

PUNCHES & CHISELS

ALIGNMENT & MARKING

Align holes with assembling parts or flanges, mark centers for drilling. Helps with precision and efficiency, especially when installing new components or modifying old ones.

PORTABAND SAW BLADES

CUTTING ON-THE-GO

Essential for cutting pipe, conduit, rod and angle iron right at the worksite. Save time walking back and forth to a cutting station.

MODULAR INDUSTRIAL STORAGE

ORGANIZATION MEANS OPTIMIZATION

Customize every feature of your storage solution to fit any industrial setting or process. Williams storage units are designed, engineered and built specifically for industrial settings, processes and systems so you can work at peak efficiency. Made in the U.S.A.

LEARN MORE AT: modularindustrialstorage.com

SUPERIOR DESIGN AND CONSTRUCTION

Fully MIG Welded and surface ground on all eight corners, creating a cabinet the looks as good as it performs.

Full height sidewalls provide maximum cubic storage capacity, while reducing item spillover into adjacent compartments.

Heavy duty 11ga plug-in guide rail allows for quick adjustment to accept different drawer sizes and combinations.

Heavy duty 11ga carriage with six ball bearing rollers and four steel rollers ensures smooth operation of every drawer, even when loaded to the 400 lb. capacity.

MORE THAN JUST CABINETS

SHELVING UNITS

Organize bulky items by adding shelving storage to your cabinets. Their rugged, all-welded construction assures smooth operation, durability and years of dependable, heavy-duty service.

WORKSTATIONS

Every workplace needs a place to work. We deliver highly customizable workstations to fit your specific needs.

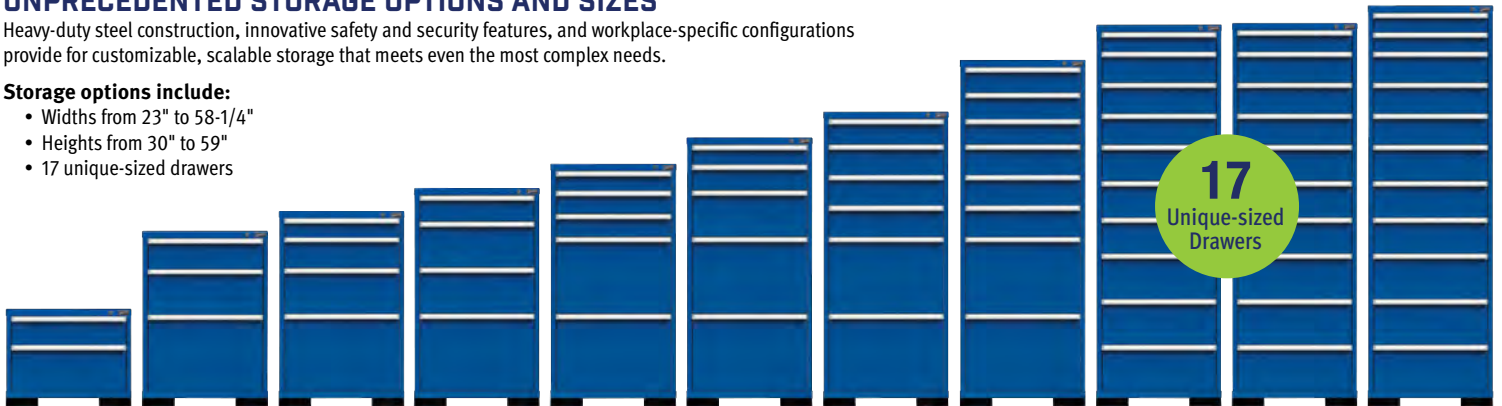

ENDLESS COMBINATIONS FOR THE END RESULT YOU NEED

UNPRECEDENTED STORAGE OPTIONS AND SIZES

Heavy-duty steel construction, innovative safety and security features, and workplace-specific configurations provide for customizable, scalable storage that meets even the most complex needs.

Storage options include:

- Widths from 23" to 58-1/4"
- Heights from 30" to 59"
- 17 unique-sized drawers
